OVERVIEW

- WebCV is only as good as the information you input
- The more information you add, the less revisions required in a word doc
- Consistency
- Avoid creating your own categories – use what's there (if you can)
- I am not a content expert! You can always ask your mentors!

CV VIEW VS. ALL ACTIVITIES VIEW

- CV View will show you the sections that will get generated when you generate a generic CV report
- All Activities View will show you EVERY section in WebCV (e.g. Teaching)

Stephen E. Lapinsky, Welcome to WebCV

The WebCV Project is an initiative by the University of Toronto Faculty of Medicine to revolutionize how faculty members organize and manage their academic activities. It provides:

- Valuable reports to faculty members at the click of a button
- Reduced time and effort required to collect and manage this information
- More accurate and complete activity data for all levels of the Faculty and its healthcare partners on a more timely basis

The WebCV team provides many resources to support you. You can view all of our support resources at webcv.utoronto.ca, or you can contact our support team at medicine.webcv@utoronto.ca or 416.946.3289.
